Camping

### PROFILE

Dynamic lead engineer with over a decade of expertise in full-stack development, delivering scalable AI-driven and cloud-native solutions. Fueled by a passion for tackling complex challenges, I drive innovation, operational efficiency, and regulatory compliance for global fintech, gaming, and e-commerce clients.

### EXPERIENCE

#### LEAD SOFTWARE ENGINEER • MAR 2022 – PRESENT

Buink Web Development • Lafayette, CO

Led technical foundations for scalable projects, ensuring compliance with accessibility, privacy, and SEO standards. Delivered AI-powered solutions, optimized CI/CD pipelines, and collaborated with clients to align innovations with business goals.

#### BACKEND DEVELOPER • AUG 2021 – FEB 2022

AnswerNet • Willow Grove, PA

Collaborated with commodity, sales, and marketing experts to enhance third-party verification and optimized contract processing workflows. Developed AWS Lambda serverless functions, upgraded management systems, configured Twilio-based call systems, and thrived in an agile Monday.com environment, fostering cross-functional software engineering expertise.

#### FULL STACK DEVELOPER • JUL 2017 – JUL 2021

IDC Games • Madrid, Spain

Passionately embraced full stack development, built a CMS portal for optimized workflows, and implemented SEO strategies to enhance platform visibility. Designed game clip sharing software, automated web-deployment, integrated 20+ payment providers, and optimized databases for improved performance and scalability.

---

## FREELANCE DEVELOPER • JUL 2015 – JUN 2017

### Upwork

Mastered web development frameworks through diverse projects and collaborated in teams to deliver end-to-end applications. Achieved 100% on-time delivery within budgets, building strong client relationships with reliable expertise and advanced analytical skills for performance metrics.

## TECHNICAL INTERN • AUG 2014 – FEB 2015

### Choice Solutions • Kansas, US

Gained core web development skills and collaborated effectively to meet team goals. Addressed real-world challenges, honing practical problem-solving abilities.
